1. SUMMARY

Sr.No	Page/Section	Issue Description	Category	Severity	Screenshot Ref
1.	HomePage/Product	Expected: Font bold & larger per Figma. Actual: Text smaller & not bold.	UI	Minor	SS1
2.	Product Listing	Expected: Text placed beside/below images. Actual: Text overlaps images.	UI	Minor	SS2
3.	Navigation	Expected: Unique category navigation. Actual: Repeated sections (“Nisha Recommends”, etc.).	UI	Minor	SS3
4.	Search	Expected: Searching “handpieces” should show results. Actual: Returns 0 results, while partial “hand” shows results.	Functional	Major	SS4

5.	Contact Us	Expected: Required fields (Name, Phone, Message) + OTP validation. Actual: Form submits empty; no OTP check.	Functional	Major	SS5
6.	Handpieces Page	Expected: Different products across pages. Actual: Same product shown on all 3 pages.	UI	Cosmetic	SS6
7.	Product detail	Expected: Show material, care, specs, size & fit. Actual: Key product details missing.	Content	Major	SS7
8.	About Us	Expected: Detailed, well-placed company info. Actual: Info too short & poorly placed.	Content	Minor	SS8
9.	Footer Resources	Expected: Links (T&C, Privacy, etc.) redirect correctly. Actual: Links redirect to cart items.	Functional	Critical	SS9

10.	Account/Cart	Expected: Cart items persist when logged in. Actual: Items only visible when logged out.	Functional	Critical	SS10
11.	Checkout	Expected: User completes payment flow. Actual: Error → “You can’t pay now.”	Functional	Critical	SS11
12.	Social Media	Expected: Icons link to real social accounts. Actual: Icons not linked.	Functional	Major	SS12
13.	Newsletter	Expected: Name & Email validate; “Join” confirms. Actual: Email validates, Name doesn’t; button non-functional.	Functional	Major	SS13
14.	Wishlist	Expected: Wishlist feature available. Actual: Wishlist option missing.	Usability	Minor	SS14

15.	Cart	Expected: Both “Add to Cart” & “Buy Now” options. Actual: Only “Add to Cart” present.	Usability	Major	SS15
16.	Recommendations	Expected: ”You may also like” shows related products Actual: Section Empty	Content	Minor	SS16
17.	Android Newsletter	Expected: Entered Name & Email visible. Actual: Text invisible due to font style/size.	UI	Major	SS17
18.	Android SocialLinks	Expected: Icons redirect to real accounts. Actual: Icons not redirecting.	Functional	Major	SS18

2. Detailed Findings

Issue 1: Font size & style mismatch

- Page/Section: Homepage
- Design Expectation: Font should be bold and slightly larger as per Figma.
- Actual Result: Text appears smaller & not bold, making it inconsistent with design.
- Impact: Visual inconsistency, affects readability & brand feel.
- Screenshot: SS1

Issue 2: Text overlapping image

- Page/Section: Homepage / Nisha Recommends
- Design Expectation: Text should be below or beside the image, not on top.
- Actual Result: Text is placed on top of the image, reduces readability.
- Impact: Poor user experience, difficult to read content
- Screenshot SS2

Issue 3: Search returns incorrect results

- Page/Section: Search
- Design Expectation: Searching “handpieces” should display all handpiece products.
- Actual Result:

- Search “handpieces” → 0 results
- Search “hand” → shows results for handcrafted pieces
- Impact: Users may think products are missing; poor search functionality.
- Screenshot: SS4

Issue 4: Contact Us validation missing

- Page/Section: Contact Us Form
- Design Expectation: **Required fields (Name, Phone Number, Message) should prevent submission if empty.**
- Actual Result: **Form submits without filling essential fields; no error shown; OTP verification is not implemented for phone number.**
- Impact: **Users may submit incomplete information; backend cannot process properly.**
- Screenshot: SS5

A screenshot of a contact form. At the top, a green message box says "Thanks for contacting us! We'll get back to you as soon as possible." Below this are input fields for "Name", "Email", "Phone Number", and "Message". The "Email" field contains "gautamiii2020@gmail.com". At the bottom is a "Reach Out" button. The form has a light beige background.

Issue 5: “You may also like” section empty

- Page/Section: Product Detail Page
- Design Expectation: **Recommended products displayed**
- Actual Result: **Section is empty.**
- Impact: **Reduces cross-selling opportunities.**
- Screenshot: SS16

Issue 6: Newsletter form not validating

- NamePage/Section: Footer → Newsletter subscription
- Design Expectation: **Both Name & Email should validate; submission should confirm**
- Actual Result: **Email validated but Name not; Join button does not show confirmation.**
- Impact: **Users may think subscription failed.**
- Screenshot: SS13

Issue 7: Android – Name & Email text not visible

- Page/Section: **Footer i.e Newsletter form**
- Design Expectation: **Typed text should be visible.**
- Actual Result: **Text invisible due to font size/style.**
- Impact: **Users cannot verify input; accessibility issue.**
- Screenshot: **SS18**

3. FUNCTIONAL TESTING NOTES

- **Navigation:** Works but repetitive sections reduce clarity.
- **Search:** Inconsistent results.
- **Cart & Account:** Items don't persist when logged in i.e severe usability break.
- **Checkout:** Blocker cannot place an order.
- **Resources Links:** Misconfigured (redirect to cart items).
- **Newsletter:** Form partially validates, submission not working.
- **Mobile (Android):** Input fields unreadable, social links broken.

4. ACCESSIBILITY & USABILITY ISSUES

- **Input Field Contrast Issue (Android):** User cannot see what is typed i.e WCAG violation.
- **Missing Field Validation:** Contact form allows empty submissions, confusing users.
- **Navigation Consistency:** Repetition of same sections (Nisha Recommends, etc.) causes cognitive overload.
- **Missing Wishlist/Buy Now:** Standard usability expectation missing for e-commerce.

5. BUG REPORTS

Bug 1:

- **Title:** Payment not possible at checkout
- **Steps to Reproduce:**

1. Add product to cart
2. Go to checkout
3. Attempt payment

- **Expected Result:** User should be able to complete payment
- **Actual Result:** Error displayed → "You can't pay now"
- **Severity:** Critical
- **Priority:** High

Bug 2

- **Title:** Cart items not visible when logged in
- **Steps to Reproduce:**
 1. Create an account & log in
 2. Add product to cart
 3. Refresh or log out
- **Expected Result:** Cart items should persist when logged in

-
- **Actual Result:** Cart items disappear in logged-in state, only visible when logged out
 - **Severity:** Critical
 - **Priority:** High

6. FINAL SUGGESTIONS

Top 3 Fixes:

1. Fix checkout/payment blocker (critical path).
2. Correct cart/account item persistence issue.
3. Configure resources & social media links properly.

Automation Candidates:

1. **Checkout Flow Automation:** Covers add-to-cart, checkout, and payment → ensures purchase path never breaks.
2. **Search Functionality Automation:** Verify that product search returns correct results for different queries.

Reason: These are repetitive, high-impact flows that directly affect business revenue.
